

At Franciscan
Care Center
dad has
everything
he **needs**...
and everything
he **loves**.

Franciscan Care Center is accredited by The Joint Commission, demonstrating compliance with national standards for health care quality and safety. Accreditation is a voluntary process that is above and beyond what is required by federal and state mandates, and validates Franciscan Care Center's commitment to the highest level of care.

With 24-hour nursing care and many of the comforts of home, our long-term care balances quality care and quality of life. Franciscan Care Center offers a variety of services and social activities to keep residents as comfortable as possible.

We have a passion around a common mission to improve lives and communities with reverence for all creation, integrity in all we do, compassion for those we serve and their families, and excellence by putting forth our personal and professional best.

We are committed to creating an environment where home is truly here.
