## Free Balance Screening

*We all value our independence, but that can change in an instant with a fall. Join for this important event to measure your balance performance. During the free balance screening, our professional physical therapists will test your upper and lower body strength, flexibility and endurance. By assessing these skills used in everyday tasks like carrying groceries or climbing stairs, we can determine if you are at risk. It's free – so take advantage of this important opportunity!*

*For more information or to make a reservation, call 859.426.6400.*
