

# DON'T BE A "HUMAN OSTRICH"

## Educational Workshop

### The Tragic Story of the Hanson Family

(true story, fictional name)

In 6 short years, this couple lost almost all their retirement savings of \$497,000 because they were unaware of what their health insurance, medical supplement insurance, Medicare and Medicaid did not cover.

During this workshop we expose the flaws in these programs and what you can do to protect yourself from these types of losses. Don't be like this well educated couple, who thought they were "set for life" but lost so much money.

This is **NOT** an annuity presentation so if you are planning to attend only one financial workshop this year you want it to be **THIS ONE!**
